

'Cielo Home' Apps

Free to download from App Store or Google Play. These are designed to provide ultimate control for your air conditioners, optimized user experience and achievements of targeted energy saving goals.

Smart Control for your ACs

Cielo gives you the luxury of taking complete control of your air conditioners including:

- ▶ Turning them ON or OFF with a click on your phone
- ▶ Changing temperature, mode, fan speed & swing position settings from anywhere, any time
- ▶ Keeps you informed about actual and set point temperature values & humidity level in the room

Comfy - Humidity/Temperature

Comfy mode lets you set triggers to personalize the operation of your AC. Helps you automatically change your AC's settings if room temperature or humidity goes above a certain level or falls below a pre-set value. Helps you save energy with lots of convenience.

Temperature Range Control

Temperature Range Control gives you the flexibility to set a temperature range for operation of your air conditioner. You can set a range by choosing minimum and maximum values. Once set, temperature of AC will only adjust within this range unless you disable it.

(Note: For Cielo Breez Plus Only)

Weekly Scheduling

Enjoy the power of scheduling your air conditioners, the way you like. Wake up fresh with a perfect night sleep at a perfect temperature. Set schedules as per your life style. Come back home and be welcomed by the environment conditions defined by you. Turn your air conditioners off automatically as you leave your home. Cielo provides endless opportunities to save energy, reduce energy bills and help environment.

Geo-Fencing

Cielo App & products work together to automatically turn on your air conditioner as you arrive back and turn it off when you leave. 'Cielo Home' app uses your phone's location to automatically generate pre-defined AC actions as per your desire. Added convenience and guaranteed savings for you.

Comprehensive Usage Statistics

Cielo Home App provides complete usage audit of your connected ACs / Heat Pumps. These details keep you aware of your usage patterns and help you achieve your energy saving goals.

Complete Timeline of Actions

Check a complete timeline of actions performed through app, remote control, Amazon Alexa, the Google Assistant or pre-set schedules. You have the control and complete knowledge of things within a single platform.

Air Filter Status

Clean air filter of your AC keeps you healthy and helps you save energy. 'Cielo Home' app tracks air filter status & gives timely alerts. Save energy & ensure healthy living.

'Cielo Home' App is free to download from App Store or Google Play
